*Shaping the Future of San Antonio*

## Camp Bullis Sector Plan

### Planning Team Meeting #2

February 9, 2010

6:00-8:00 pm

### AGENDA

#### 1. Welcome/Introductions

- Introduction of new members of Sector Planning Team
- Formation of the JLUS Implementation Subcommittee
- Planning Team Memorandum of Understanding
- Determine Meeting Time for Sector Planning Team Meetings (day time vs. evening)
- Review and Select Name for Sector Plan

#### 2. Summary of City Wide Visioning Forum (January 22, 2010)

#### 3. Review Priorities of Issues and Values Group Exercise Results (Meeting #1)

#### 4. Conduct Asset Identification Mapping Exercise (Group Exercise)

- Asset mapping creates an inventory of resources / assets that define one's community (sector area). The resources / assets are characterized as physical assets that provide a setting that connects people, that define a sense of place, and that defines their quality of community life.

#### 5. Further Development of Issues and Values (Group Exercise)

#### 6. Discuss Preliminary Vision

#### 7. Next Steps/Adjourn

# Camp Bullis Sector Plan

*Shaping the Future of San Antonio*

## Sector Plan Preliminary Vision's

1. *“The residents of the Hill Country Sector cherish the panoramic views and priceless natural resources found in the Edwards Plateau ecological region that supports a vibrant quality of life through sustainable development, recreational opportunities, educational pursuits, local heritage, scenic resources, diverse housing choices and adequate supportive services.”*
2. *“The Hill Country Sector is a community, rich with natural panoramic views of the northern hills landscape within its built environment. The community fosters a high quality of life,*
  - *Preserving priceless natural resources including the Edwards Aquifer and karst landforms which provide a unique and valuable asset to the region today and in the future,*
  - *Enhancing the quality of life through the integration of scenic and recreational resources, outstanding educational opportunities, and quality housing, while*
  - *Developing a compatible land use fabric that enhances the value of the land, preserves military readiness, and contributes to the economic development for the region.”*
